#### Don't Blow Out in the Wind

They are built for rugged use. Built strong and durable.

Built so that they won't blow out; so that they won't leak and won't smoke.

When you buy a RAYO, you buy a well-made lantern—the best that experts can produce.

#### Why Look Older Than You Are?

The gentleman to the right of the reader (sketched from life) is wearing old style or pasted double-vision lenses. The lines of the reading waters are noticeably prominent and he has difficulty in adjusting his eyes to the lenses. The cement used to join the two lenses has become clouded and has made his glasses misty.

• The two figures to the left (sketched from life) are wearing Kryptok double-vision lenses. There are no seams on these glasses, because the reading lenses are fused invisibly within the distance lenses. These latter two persons are at ease, look dignified and comfortable.
